

Product License Applications for Natural Health Products

Top 10 Tips for Approval

- ✓ Know which active ingredients are in your product.
- ✓ Understand how much of each active ingredient is provided by one dose of your product.
- ✓ Confirm which non-medicinal ingredients are in your product.
- ✓ Finalize your product claims.
- ✓ Check the Natural and Non-prescription Health Product Directorate web site to see which active ingredients in your product are represented by a monograph.
- ✓ Prepare your product license application referencing as many monographs as possible.
- ✓ Use the electronic application form to list your product formulation, intended use, target population and safety information.
- ✓ Ensure a monograph attestation form is included with your product license application.
- ✓ Use Health Canada's dedicated software program to compile your product license application.
- ✓ Submit your completed product license application via the ePost secure on-line system.
